Players may voluntarily elect to quit a team at any time after they are registered. Coaches cannot drop a player from a team except in limited circumstances as outlined in the Ohio South manual. If a player voluntarily requests to be dropped from the team's roster, both the parents and the player must sign this form.

REASON FOR REQUEST TO QUIT:

This is to certify that we are voluntarily quitting this team. We understand that this move only opens the team's roster for adding or transferring of other players. For registration purposes, my parents and I understand that if I want to play with another team during the season that I will need to be transferred using the "Inter Team Player Transfer Request." Any request for a transfer must be made within the time limits established by the league of the team being transferred. Neither the coach nor anyone connected with the team encouraged us to quit.
